

## Alert from the NDEWS Web Monitoring Team: Online mentions of Flubromazepam

**Context:** This alert follows NDEWS Briefing Issue 73 (February 2022) and NPS Discovery's 2022 Q2 Trend Report, which found increasing signals for Flubromazepam in early 2022.

**What was found?** A trend of increased discussion for the drug Flubromazepam has continued to grow on Reddit in Summer 2022.

**To what does Flubromazepam refer?** Flubromazepam is a benzodiazepine derivative drug with multiple years of drug Subreddit discussion history.

**How is it being discussed?** Commenters describe the long duration of Flubromazepam's effects. While the slang term "flubro" is associated with Flubromazepam, it more commonly refers to similar drugs Flubromazolam and Flubrotizolam. Due to this ambiguity, "flubro" mentions were excluded from Flubromazepam counts.

**Drug Terms:** Flubromazepam, "flubro".
